

**This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl.
with all components. To present you how
our Kit is built I will start with the
main components.**

This is a Full Kit **2568D**/AT12 HP/2x AEB inj 4cyl.
with all components. To present you how
our Kit is built I will start with the
main components.

This is a Full Kit **2568D**/AT12 HP/2x AEB inj 4cyl. with all components. To present you how our Kit is built I will start with the main components.

This is a 2568D ECU Kit.
It is composed of the ECU and Part Accessories: (5,6,8 cyl., Harness with waterproof plugs, Map-sensor, Switch with horn signal and level indicator, Fuse box waterproof, Integrated OBD II)

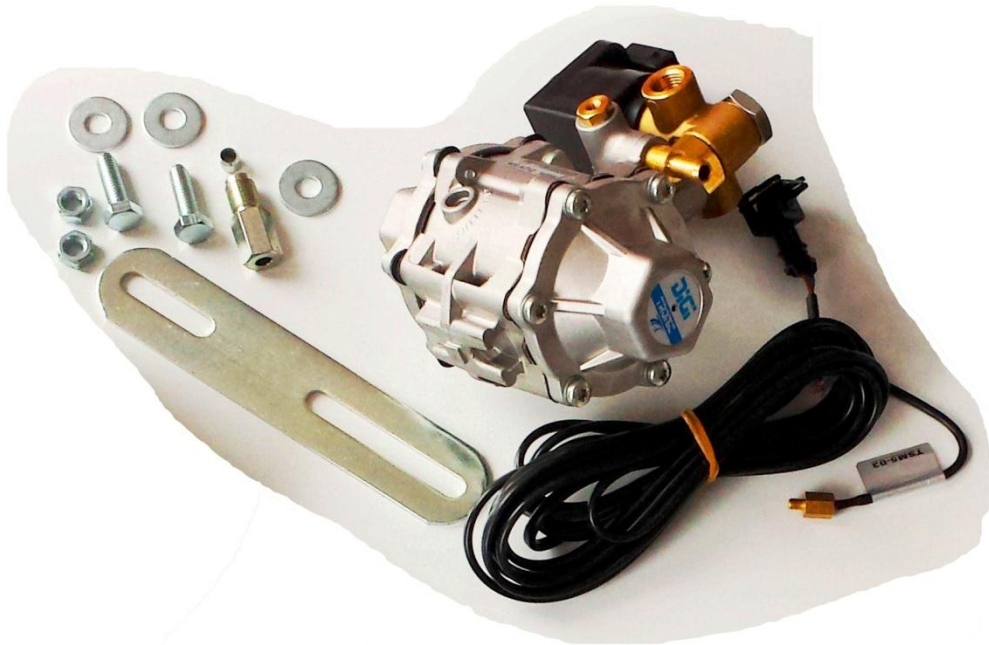

In individual cases the part accessories can be purchased separately but normally the ECU is together with part accessories.

This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl. with all components. To present you how our Kit is built I will start with the main components.

For Hana injectors there is a universal Gas temp. Sensor needed as there is no dedicated one

A „Front Kit” is with additional components:

a Gas temp. Sensor (Not needed for 4 cyl. Kits)

Digitronic 2568D Full Kit

This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl. with all components. To present you how our Kit is built I will start with the main components.

**So this we call a „Front Kit”
(Main Components with Part
Accessories and Additional
Parts)**

Digitronic 2568D Full Kit

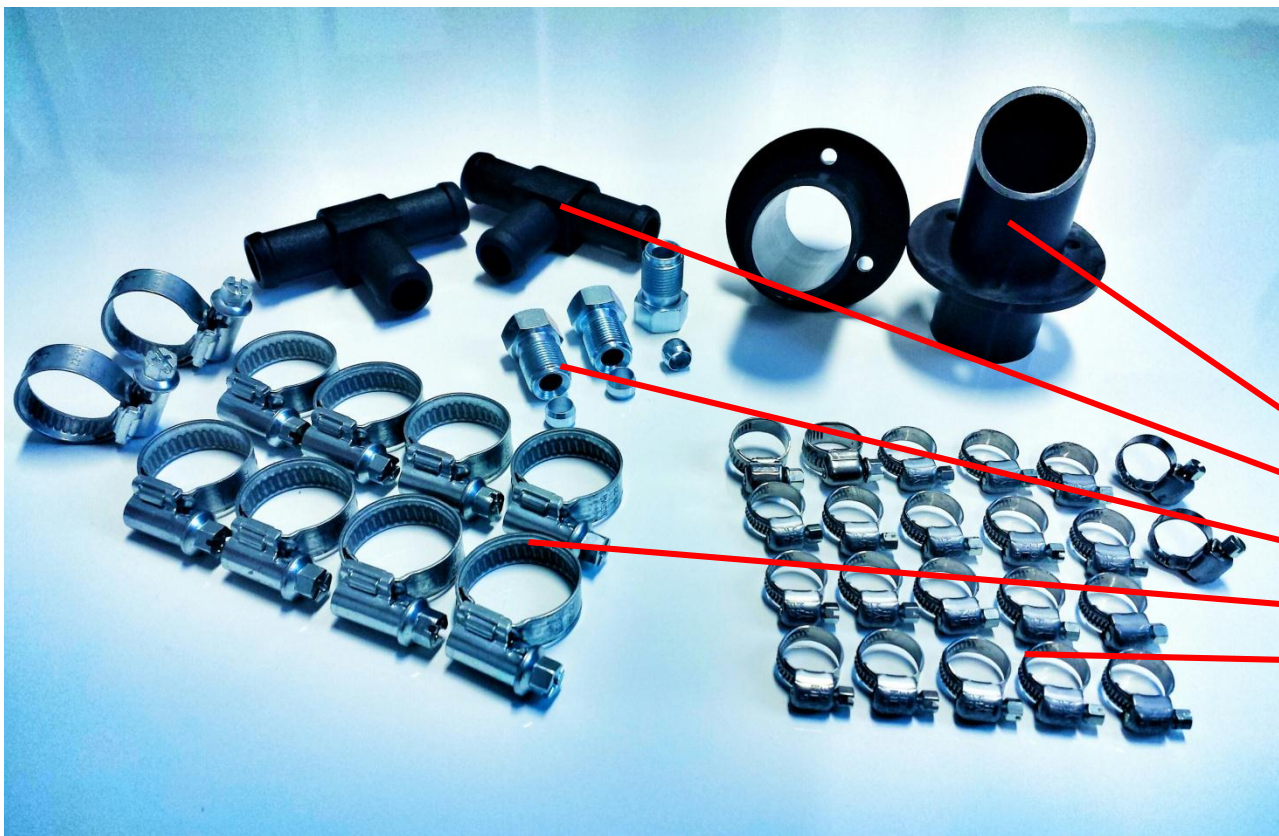

This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl. with all components. To present you how our Kit is built I will start with the main components.

Finally we add the Full Kit Accessories:

Digitronic 2568D Full Kit

This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl. with all components. To present you how our Kit is built I will start with the main components.

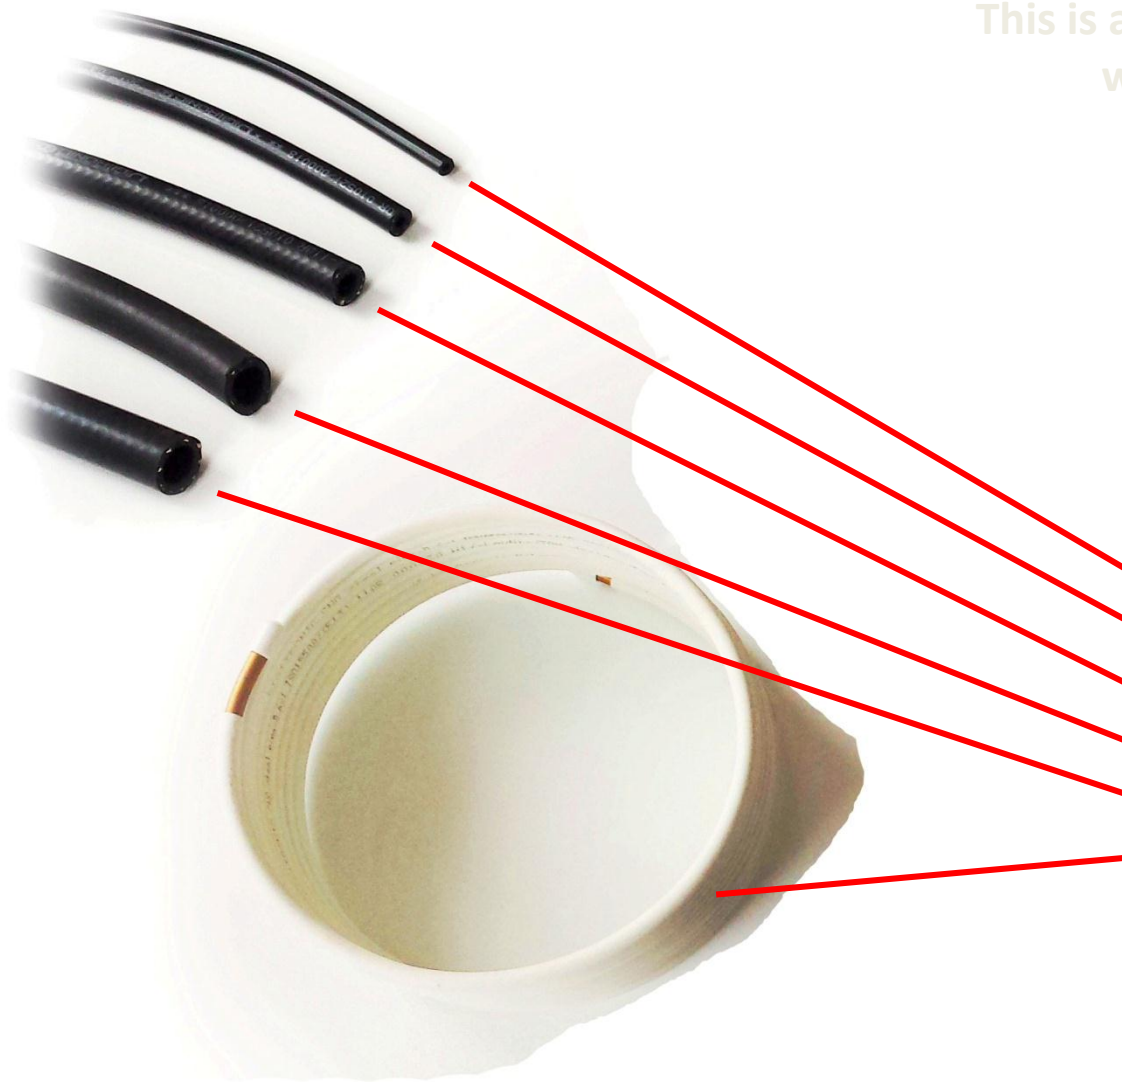

Finally we add the Full Kit Accessories:

The Accessory bag:

- 2x Vent connector
- 2x T-connector
- 3x High pressure connector
- 10x big clamps
- 22x small clamps

This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl. with all components. To present you how our Kit is built I will start with the main components.

Finally we add the Full Kit Accessories:

And the Pipe and Hoses:

- Ø4mm for vacuum - 1,5m**
- Ø5mm for gas - 2,5m**
- Ø11mm for gas - 1,5m**
- Ø15mm for coolant - 1,5m**
- Ø16mm for gas - 0,5m**
- High pressure Ø6mm for CNG - 6m**

This is a Full Kit 2568D/AT12 HP/2x AEB inj 4cyl.
with all components.
